

SHARING THE LIGHT

**DUNDU – GIANTS OF LIGHT:
COMPANY PORTFOLIO**

Tobias Husemann

Tobias Husemann
CREATOR

Tobias Husemann develops large puppets made of fibers and light that are up to eight meters tall and, despite their imposing size, appear delicate and expressive. The movable figures are controlled by a team of five and serve as impressive projection surfaces for shows, events, and walking acts.

Stefan Charisius

Stefan Charisius
DUNDUMUSIK

Stefan Charisius, co-founder and musical director of DUNDU, creates a unique soundscape with his West African harp, the kora. His genre-spanning music generates a magical energy that intuitively interacts with the performers and the audience.

ESTABLISHED 2006

DUNDU: THE CONCEPT. VISION THROUGH MOVEMENT AND SOUND.

DUNDU creates attention for companies and showcases your brand. Wherever DUNDU appears, he attracts the masses. He appeals to every target audience and uniquely directs their attention to your company and your products. DUNDU ensures that your message is received and understood. He stands for transparency and trust. DUNDU combines interaction, fascination, and communication. Captivate your audience and use DUNDU as an ambassador for your corporate communication. His vitality brings your product and mission to life.

With twenty years of stage experience and the perfect live music accompaniment, your ideas will be perfectly staged. DUNDU is flexible and gives the audience a powerful sense of spatial grandeur. His performance makes dreams come true and turns visions into reality.

The DUNDU team consists of 35 experienced performers, technicians, musicians, and creative minds led by founders Tobias Husemann and Stefan Charisius. Continuous rehearsals and the ongoing development of DUNDU puppets ensure professional shows that always resonate with the spirit of the times. Based on your desires and bold ideas, we develop a customized show.

For agencies: We are happy to support you in advance with graphic, visual, and other techniques for your client presentation. Thanks to its flexibility and versatility, DUNDU can be integrated into a wide variety of shows and events. We are always here to assist you in creating unique moments.

Tell us about your idea, and we will turn your visions into reality with DUNDU.

The Giants of Light don't just move their limbs – they move people by uniting cultures, spreading joy, and leaving behind a childlike sense of wonder that makes you believe anything is possible.

And trust us: With DUNDU, it truly is.

- Nonverbal Moderation: Support for presentations, dialogues between figures.
- Teambuilding: Workshops and interactive opportunities.
- Photo Moments: Photo activities and social media promotion through viral effects.

VEKTOR

Vektor is a monumental figure, a living sculpture, a fascinating symbol of oversize. As the largest character in the Dundu family, it sets completely new standards with its impressive 8 metres. Visible from afar, he towers over crowds and buildings and even from a distance creates an effect that arouses amazement and fascination.

His appearance is like an experience between fantasy and reality – powerful, majestic and yet with a touching lightness. Vektor effortlessly masters even the largest stages and event areas and becomes the radiant magnet of every production.

Height: 8 m

Width: 2,40 m

Ideal for: Inaugurations of bridges, buildings, arenas, stadiums, and outdoor events.

LUMO

Lumo changes the mood of your Event as a multicolour light representator who reacts to the emotions in the sound and the atmosphere. Artificial Intelligence processes sonic and visual environments, selecting the most effective light responses to heighten atmosphere and evoke emotional resonance. With this synergy of light, sound, and AI, LUMO transcends the static role of an illuminated sculpture. It becomes a living, responsive presence, capable of intensifying the shared experience of audience and space.

We believe LUMO embodies innovation, interaction, and artistic vision in line with the spirit of Events.

Height: 3.30 m

Width: 1.20 m

Special features: Automated lighting concepts thanks to beat detection, intelligent algorithms, customisable lighting concepts, adaptable via DMX/Midi interface

Ideal for: Stage shows, dance performances, festivals, parties, techno events, crowd control.

VEKTOR (8m)

DUNDU CLASSIC (5m)

DUNDU MEDIUM (3m)

BABY DUNDU (1m)

THE LARGE DUNDUS

Standing at a majestic 5 meters tall and illuminated, the Giant DUNDUs capture the attention of even the largest crowds.

Whether as a show act on or in front of the stage, in stadiums, public squares, walking through audiences or city centers, or dancing amidst the crowd – they're always the focal point.

Height: 4.30 m – 4.80 m

Width: 1.50 m

Up to 4 large DUNDUs can perform simultaneously
Suitable for indoor/outdoor use in daylight and darkness

Perfect for: Festivals, street fairs, concerts, trade shows, and sporting events.

THE MEDIUM DUNDUS

With a height of 2.80 metres, the medium-sized light puppets are particularly agile and can make a big impact even in smaller spaces. Their dynamic movements – from powerful jumps to acrobatic stunts – make them crowd favourites.

Height: 2,80 m

Width: 1,00 m

Indoor/outdoor use in daylight and darkness

Up to 2 medium-sized DUNDUS can be used at the same time

Ideal for: Concerts, trade fairs, product launches, company anniversaries, restaurant openings. In clubs, museums, for precise choreographies and dances

BABY DUNDU

Baby DUNDU The smallest members of the family – with a strong presence, instantly evokes parental feelings and is loved by everyone. With childlike curiosity, they open hearts and inspire imagination.

Height: 0.7 - 1.0 m

Width: 0.35 m

Use: Indoor/outdoor, in daylight or darkness

Capacity: Up to 3 Baby DUNDUs performing simultaneously

Ideal for: Trade shows, product launches, corporate events, conferences, teambuilding, gallery/store openings.

SPIEGLY

Spiegly is a visual sensation, an electrifying dancer and a multi-faceted brand ambassador. Her movable 2.80 metre tall body made of reflective segments captures her surroundings and transforms every shimmer, every flash of light and every laser beam into a motivating explosion of colour.

Clear LED technology: Equipped with white LED light (also available in RGB on request), Spiegly adapts flexibly to any lighting mood - or sets contrasting colour accents - and becomes a sensually illuminated eye-catcher at any event.

Height: 2,80 m

Light colour: LED white, RGB on request

Outer skin: Reflective segments

Ideal for: Corporate events, festivals, concerts, sporting events, parties, trade fairs, film shoots.

BIMBI

BIMBI stands 4 meters tall and is equipped with DMX lighting technology that translates her emotions into vibrant light, making "artificial intelligence" come alive through her futuristic design.

Height: 3.80 m

Width: 1.50 m

Use: Indoor/outdoor, in darkness

Ideal as: DUNDU's partner, show act, dance performances, corporate events, modern design, the future, and the digital world.

THE AUDIO WORLD: DUNDU-MUSIC PRODUCED FOR YOUR EVENT

Nothing underlines the incomparable character of DUNDU as well as the sounds and rhythms composed and performed live by Stefan Charisius especially for DUNDU. His unique sounds, which cannot be assigned to any traditional genre, transport the audience into a musical world of their own and open their hearts to your message.

Only a few musicians play freely to a visual act – currently playing for DUNDU are: Kora (African harp), electronics, flute, saxophone, percussion, electric violin, chello, piano.
